

“Our strategy is to continue to grow our business in our largest market here in the USA. Our customers continue to challenge us for more unique and innovative products that are cost effective. We have been able to meet those challenges over the past ten years. This has hastened our growth in Mocksville,” said Ronnie Batchler, COO of Avgol Nonwoven Industries. “We will continue to be challenged. We will need the cooperation of our dedicated employees, our customers, and the state and local governments to sustain our current business and to continue our aggressive growth rate.”

The One NC Fund provides financial assistance, through local governments, to attract business projects that will stimulate economic activity and create new jobs in the state. Companies receive no money up front and must meet job creation and investment performance standards to qualify for grant funds. These grants also require and are contingent upon local matches.

“We are excited to bring more jobs to Davie County giving people a chance to work closer to home,” said Rep. Julia Howard.

North Carolina continues to have a top-ranked business climate. Through Gov. Perdue’s JobsNOW initiative, the state works aggressively to create jobs, train and retrain its workforce, and lay the foundation for a strong and sustainable economic future.

Through use of the One NC Fund, more than 50,000 jobs and \$9 billion in investment have been created since 2001. Other partners that helped with this project include: the N.C. Department of Commerce, N.C. Community Colleges, Energy United, Davie County and the Town of Mocksville.
